

Accepted Manuscript

Enzymatic saccharification of lignocellulosic residues using cellulolytic enzyme extract produced by *Penicillium roqueforti* ATCC 10110 cultivated on residue of yellow mombin fruit

José Lucas de Almeida Antunes Ferraz, Lucas Oliveira Souza, Glêydison Amarante Soares, Janclei Pereira Coutinho, Julieta Rangel de Oliveira, Elizama Aguiar-Oliveira, Marcelo Franco

PII: S0960-8524(17)30935-5
DOI: <http://dx.doi.org/10.1016/j.biortech.2017.06.048>
Reference: BITE 18285

To appear in: *Bioresource Technology*

Received Date: 5 April 2017
Revised Date: 8 June 2017
Accepted Date: 9 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
