Extraction of microalgal lipids and the influence of polar lipids on biodiesel production by lipase-catalyzed transesterification

Elvira Navarro López, Alfonso Robles Medina, Pedro Antonio González Moreno, Luis Esteban Cerdán, Emilio Molina Grima

PII: S0960-8524(16)30852-5
DOI: <http://dx.doi.org/10.1016/j.biortech.2016.06.035>
Reference: BITE 16657

To appear in: *Bioresource Technology*

Received Date: 19 April 2016
Revised Date: 9 June 2016
Accepted Date: 10 June 2016

Please cite this article as: López, E.N., Medina, A.R., Moreno, P.A.G., Cerdán, L.E., Grima, E.M., Extraction of microalgal lipids and the influence of polar lipids on biodiesel production by lipase-catalyzed transesterification, *Bioresource Technology* (2016), doi: <http://dx.doi.org/10.1016/j.biortech.2016.06.035>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Extraction of microalgal lipids and the influence of polar lipids on biodiesel
production by lipase-catalyzed transesterification**
