Accepted Manuscript

Community structure dynamics during startup in microbial fuel cells – the effect of phosphate concentrations

Keren Yanuka-Golub, Leah Reshef, Judith Rishpon, Uri Gophna

PII: S0960-8524(16)30488-6
DOI: http://dx.doi.org/10.1016/j.biortech.2016.04.016
Reference: BITE 16375

To appear in: *Bioresource Technology*

Received Date: 28 February 2016
Revised Date: 3 April 2016
Accepted Date: 4 April 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
