

## Accepted Manuscript

Activation of glycerol metabolic pathway by evolutionary engineering of *Rhizopus oryzae* to strengthen the fumaric acid biosynthesis from crude glycerol

Di Huang, Ru Wang, Wenjie Du, Guanyi Wang, Menglei Xia

PII: S0960-8524(15)01075-5  
DOI: <http://dx.doi.org/10.1016/j.biortech.2015.07.104>  
Reference: BITE 15337

To appear in: *Bioresource Technology*

Received Date: 24 June 2015  
Revised Date: 26 July 2015  
Accepted Date: 27 July 2015

Please cite this article as: Huang, D., Wang, R., Du, W., Wang, G., Xia, M., Activation of glycerol metabolic pathway by evolutionary engineering of *Rhizopus oryzae* to strengthen the fumaric acid biosynthesis from crude glycerol, *Bioresource Technology* (2015), doi: <http://dx.doi.org/10.1016/j.biortech.2015.07.104>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Activation of glycerol metabolic pathway by evolutionary engineering of *Rhizopus oryzae* to strengthen the fumaric acid biosynthesis from crude glycerol**
