

## Accepted Manuscript

Understanding low-lipid algae hydrothermal liquefaction characteristics and pathways through hydrothermal liquefaction of algal major components: crude polysaccharides, crude proteins and their binary mixtures

Wenchao Yang, Xianguo Li, Zihui Li, Chenhong Tong, Lijuan Feng

PII: S0960-8524(15)00973-6

DOI: <http://dx.doi.org/10.1016/j.biortech.2015.07.020>

Reference: BITE 15253

To appear in: *Bioresource Technology*

Received Date: 13 May 2015

Revised Date: 4 July 2015

Accepted Date: 6 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
