Short Communication

Effects of pyrolysis temperature and heating time on biochar obtained from the pyrolysis of straw and lignosulfonate

Jie Zhang, Jia Liu, Rongle Liu

PII: S0960-8524(14)01613-7

DOI: <http://dx.doi.org/10.1016/j.biortech.2014.11.011>

Reference: BITE 14217

To appear in: *Bioresource Technology*

Received Date: 25 September 2014

Revised Date: 3 November 2014

Accepted Date: 4 November 2014

Please cite this article as: Zhang, J., Liu, J., Liu, R., Effects of pyrolysis temperature and heating time on biochar obtained from the pyrolysis of straw and lignosulfonate, *Bioresource Technology* (2014), doi: <http://dx.doi.org/10.1016/j.biortech.2014.11.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effects of pyrolysis temperature and heating time on biochar obtained from the
pyrolysis of straw and lignosulfonate**
