

## Accepted Manuscript

Physiological and electrochemical effects of different electron acceptors on bacterial anode respiration in bioelectrochemical systems

Yang Yonggang, Xiang Yinbo, Xia Chunyu, Wei-Min Wu, Sun Guoping, Xu Meiyong

PII: S0960-8524(14)00638-5  
DOI: <http://dx.doi.org/10.1016/j.biortech.2014.04.098>  
Reference: BITE 13394

To appear in: *Bioresource Technology*

Received Date: 20 February 2014  
Revised Date: 23 April 2014  
Accepted Date: 25 April 2014

Please cite this article as: Yonggang, Y., Yinbo, X., Chunyu, X., Wu, W-M., Guoping, S., Meiyong, X., Physiological and electrochemical effects of different electron acceptors on bacterial anode respiration in bioelectrochemical systems, *Bioresource Technology* (2014), doi: <http://dx.doi.org/10.1016/j.biortech.2014.04.098>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Physiological and electrochemical effects of different electron acceptors on  
bacterial anode respiration in bioelectrochemical systems**
