Industrial Wastes as a Promising Renewable Source for Production of Microbial Lipid and Direct Transesterification of the Lipid into Biodiesel

Benjamas Cheirsilp, Yasmi Louhasakul

PII: S0960-8524(13)00772-4
DOI: <http://dx.doi.org/10.1016/j.biortech.2013.05.012>
Reference: BITE 11799

To appear in: *Bioresource Technology*

Received Date: 18 February 2013
Revised Date: 3 May 2013
Accepted Date: 5 May 2013

Please cite this article as: Cheirsilp, B., Louhasakul, Y., Industrial Wastes as a Promising Renewable Source for Production of Microbial Lipid and Direct Transesterification of the Lipid into Biodiesel, *Bioresource Technology* (2013), doi: <http://dx.doi.org/10.1016/j.biortech.2013.05.012>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Industrial Wastes as a Promising Renewable Source for
Production of Microbial Lipid and Direct Transesterification of
the Lipid into Biodiesel**
