

Accepted Manuscript

Industrial-scale steam explosion pretreatment of sugarcane straw for enzymatic hydrolysis of cellulose for production of second generation ethanol and value-added products

Fernando M.V. Oliveira, Irapuan O. Pinheiro, Ana M. Souto-Maior, Carlos Martin, Adilson R. Gonçalves, George J.M. Rocha

PII: S0960-8524(12)01885-8
DOI: <http://dx.doi.org/10.1016/j.biortech.2012.12.030>
Reference: BITE 10997

To appear in: *Bioresource Technology*

Received Date: 16 October 2012
Revised Date: 3 December 2012
Accepted Date: 5 December 2012

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Industrial-scale steam explosion pretreatment of sugarcane straw for enzymatic hydrolysis of cellulose for production of second generation ethanol and value-added products
