

Accepted Manuscript

Title: The Impact of Hydraulic Retention Time and Operating Temperature on Biofuel Production and Process Wastewater Treatment

Authors: Haider Al-Rubaye, Joseph D. Smith, M.S. Manohar, S.K. Shruti, Jia Yu, Mahyar Ghorbanian

PII: S0255-2701(18)30205-8
DOI: <https://doi.org/10.1016/j.cep.2018.04.036>
Reference: CEP 7278

To appear in: *Chemical Engineering and Processing*

Received date: 18-2-2018
Revised date: 30-4-2018
Accepted date: 30-4-2018

Please cite this article as: Al-Rubaye H, Smith JD, Manohar MS, Shruti SK, Yu J, Ghorbanian M, The Impact of Hydraulic Retention Time and Operating Temperature on Biofuel Production and Process Wastewater Treatment, *Chemical Engineering and Processing - Process Intensification* (2018), <https://doi.org/10.1016/j.cep.2018.04.036>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Impact of Hydraulic Retention Time and Operating Temperature on Biofuel Production and Process Wastewater Treatment
