

## Accepted Manuscript

Title: Modelling and improvement of heat transfer coefficient in auger type reactors for fast pyrolysis application

Authors: A. Funke, R. Grandl, M. Ernst, N. Dahmen

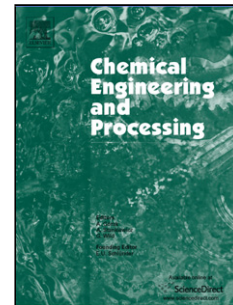

PII: S0255-2701(18)30253-8  
DOI: <https://doi.org/10.1016/j.cep.2018.05.023>  
Reference: CEP 7301

To appear in: *Chemical Engineering and Processing*

Received date: 28-2-2018  
Revised date: 30-5-2018  
Accepted date: 30-5-2018

Please cite this article as: Funke A, Grandl R, Ernst M, Dahmen N, Modelling and improvement of heat transfer coefficient in auger type reactors for fast pyrolysis application, *Chemical Engineering and Processing - Process Intensification* (2018), <https://doi.org/10.1016/j.cep.2018.05.023>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# **Modelling and improvement of heat transfer coefficient in auger type reactors for fast pyrolysis application**

**Funke, A.\*; Grandl, R.; Ernst, M.; Dahmen, N.**
