Title: Process intensification using a spiral capillary microreactor for continuous flow synthesis of performic acid and It's kinetic study

Authors: Yadagiri Maralla, Shirish Sonawane

PII: S0255-2701(17)31098-X
DOI: <https://doi.org/10.1016/j.cep.2018.01.009>
Reference: CEP 7164

To appear in: *Chemical Engineering and Processing*

Received date: 2-11-2017
Revised date: 23-12-2017
Accepted date: 10-1-2018

Please cite this article as: Yadagiri Maralla, Shirish Sonawane, Process intensification using a spiral capillary microreactor for continuous flow synthesis of performic acid and It's kinetic study, *Chemical Engineering and Processing* <https://doi.org/10.1016/j.cep.2018.01.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Process intensification using a spiral capillary microreactor
for continuous flow synthesis of performic acid and It's
kinetic study**
