

## Accepted Manuscript

Title: Properties of methane autothermal reforming to generate hydrogen in membrane reactor based on thermodynamic equilibrium model

Authors: Yunfei Yan, Haojie Li, Lixian Li, Li Zhang, Jie Zhang

PII: S0255-2701(17)30567-6  
DOI: <https://doi.org/10.1016/j.cep.2018.01.010>  
Reference: CEP 7165

To appear in: *Chemical Engineering and Processing*

Received date: 11-6-2017  
Revised date: 5-1-2018  
Accepted date: 12-1-2018

Please cite this article as: Yunfei Yan, Haojie Li, Lixian Li, Li Zhang, Jie Zhang, Properties of methane autothermal reforming to generate hydrogen in membrane reactor based on thermodynamic equilibrium model, *Chemical Engineering and Processing* <https://doi.org/10.1016/j.cep.2018.01.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Properties of methane autothermal reforming to generate hydrogen in membrane reactor based on thermodynamic equilibrium model
