

Accepted Manuscript

Title: Intensification of sonochemical reactions in solid-liquid systems under fully suspended condition

Authors: Daniel Stoian, Nicky Eshtiaghi, Jie Wu, Rajarathinam Parthasarathy

PII: S0255-2701(17)30309-4
DOI: <https://doi.org/10.1016/j.cep.2017.10.025>
Reference: CEP 7109

To appear in: *Chemical Engineering and Processing*

Received date: 31-3-2017
Revised date: 19-7-2017
Accepted date: 29-10-2017

Please cite this article as: Daniel Stoian, Nicky Eshtiaghi, Jie Wu, Rajarathinam Parthasarathy, Intensification of sonochemical reactions in solid-liquid systems under fully suspended condition, Chemical Engineering and Processing <https://doi.org/10.1016/j.cep.2017.10.025>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Intensification of sonochemical reactions in solid-liquid systems under fully suspended condition
