Title: Influence of the drying conditions on the particle distribution in particle filled polymer films: Experimental validation of predictive drying regime maps

Authors: Susanna Baesch, Kyle Price, Philip Scharfer, Lorraine Francis, Wilhelm Schabel

PII: S0255-2701(17)30584-6
DOI: <https://doi.org/10.1016/j.cep.2017.10.018>
Reference: CEP 7102

To appear in: *Chemical Engineering and Processing*

Received date: 16-7-2017
Revised date: 22-10-2017
Accepted date: 24-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Influence of the drying conditions on the particle distribution in particle filled polymer films:

Experimental validation of predictive drying regime maps
