Life cycle assessments for biomass derived sustainable biopolymer & energy co-generation

Dongda Zhang, Ehecatl Antonio del Rio-Chanona, Nilay Shah

PII: S2352-5509(18)30100-3
DOI: <https://doi.org/10.1016/j.spc.2018.05.002>
Reference: SPC 136

To appear in: *Sustainable Production and Consumption*

Received date: 18 March 2018

Revised date: 3 May 2018

Accepted date: 16 May 2018

Please cite this article as: Zhang D., del Rio-Chanona E.A., Shah N., Life cycle assessments for biomass derived sustainable biopolymer & energy co-generation. *Sustainable Production and Consumption* (2018), <https://doi.org/10.1016/j.spc.2018.05.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Life cycle assessments for biomass derived sustainable biopolymer & energy co-generation
