

## Accepted Manuscript

An assessment of the Romanian solid waste management system based on sustainable development indicators

Daniela Căilean (Gavrilescu), Carmen Teodosiu

PII: S2352-5509(16)30015-X

DOI: <http://dx.doi.org/10.1016/j.spc.2016.07.004>

Reference: SPC 65

To appear in: *Sustainable Production and Consumption*

Received date: 16 March 2016

Revised date: 12 July 2016

Accepted date: 25 July 2016

Please cite this article as: Gavrilescu, D.C., Teodosiu, C., An assessment of the Romanian solid waste management system based on sustainable development indicators. *Sustainable Production and Consumption* (2016), <http://dx.doi.org/10.1016/j.spc.2016.07.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**\*Research Highlights**

- The Romanian SWM sustainability is assessed based on 4 tiers of indicators
- Dynamics of waste generation and treatment options are provided and compared to EU
- Analysis of municipal solid waste self-sufficiency indicator is performed
- Carbon Footprint of Romanian waste is calculated and compared with other countries
