

## Accepted Manuscript

Impedance measurements on an Engineered Cementitious Composite: A critical evaluation of testing protocols

Benny Suryanto, Hideaki Takaoka, W. John McCater, Danah Saraireh, Hussameldin Taha

PII: S0263-2241(18)30692-4

DOI: <https://doi.org/10.1016/j.measurement.2018.07.066>

Reference: MEASUR 5750

To appear in: *Measurement*

Received Date: 14 September 2017

Revised Date: 5 April 2018

Accepted Date: 21 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impedance measurements on an Engineered Cementitious Composite: A critical  
evaluation of testing protocols
