This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Paired Stretchable Printed Sensor System for Ambulatory Blood Pressure Monitoring

Jiseok Kim and Woo Soo Kim*

Stretchable Devices Laboratory, School Mechatronic System Engineering, Simon Fraser University, Surrey, BC V3T 0A3, Canada
