Title: Digital image based simple scanometric device for the express detection of aqueous contamination of Hg^{2+}

Authors: V. Poornima, V. Alexandar, S. Iswariya, A. Dhivya Parameshwari, R. Muthukumar, T.S. Uma

PII: S0925-4005(18)31368-6
DOI: <https://doi.org/10.1016/j.snb.2018.07.120>
Reference: SNB 25089

To appear in: *Sensors and Actuators B*

Received date: 9-2-2018
Revised date: 12-7-2018
Accepted date: 25-7-2018

Chemical* (2018), <https://doi.org/10.1016/j.snb.2018.07.120>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Digital image based simple scanometric device for the express detection of aqueous contamination of Hg²⁺
