Title: Coumarin-derived Organosilatrane: Functionalization at magnetic silica surface and selective recognition of Hg²⁺ ion

Authors: Gurjaspreet Singh, Sanchita, Sunita Rani, Geetika Sharma, Pooja Kalra

PII: S0925-4005(18)30526-4
DOI: <https://doi.org/10.1016/j.snb.2018.03.036>
Reference: SNB 24321

To appear in: *Sensors and Actuators B*

Received date: 28-11-2017
Revised date: 9-3-2018
Accepted date: 9-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

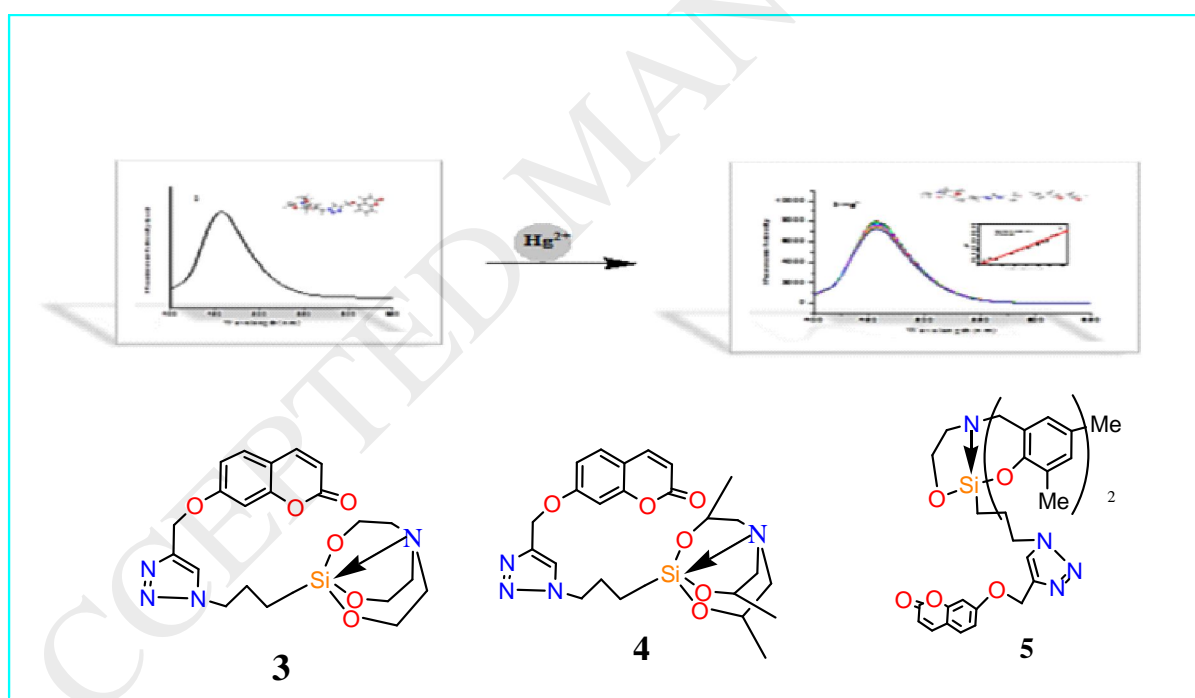

Coumarin-derived Organosilatrane: Functionalization at magnetic silica surface and selective recognition of Hg^{2+} ion

Gurjaspreet Singh^{*a}, Sanchita^a, Sunita Rani^a, Geetika Sharma^a, Pooja Kalra^a
