Title: Two rhodamine derived fluorescence turn-on chemosensors for Hg(II) recognition and sensing: synthesis, characterization and sensing performance

Author: Senmiao Tong Liqin Zhang Liu Bing Lita Yi

PII: S0925-4005(14)00791-6
DOI: <http://dx.doi.org/doi:10.1016/j.snb.2014.06.102>
Reference: SNB 17116

To appear in: *Sensors and Actuators B*

Received date: 25-3-2014
Revised date: 18-6-2014
Accepted date: 24-6-2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
