The Comparison of Dented Pipeline Displacement Calculation Methods

Ying Wu, Na Tang, Peng Zhang

PII: S1350-6307(15)00189-2
DOI: doi: [10.1016/j.engfailanal.2015.06.006](https://doi.org/10.1016/j.engfailanal.2015.06.006)
Reference: EFA 2598

To appear in:

Received date: 29 January 2015
Revised date: 7 June 2015
Accepted date: 13 June 2015

Please cite this article as: , The Comparison of Dented Pipeline Displacement Calculation Methods, (2015), doi: [10.1016/j.engfailanal.2015.06.006](https://doi.org/10.1016/j.engfailanal.2015.06.006)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Comparison of Dented Pipeline Displacement

Calculation Methods

Authors:

Ying Wu Corresponding author

Teacher in Department of Civil Engineering and Architecture

Southwest Petroleum University, Chengdu 610500, China

Tel: +86-010-13880738830
