

## Accepted Manuscript

Fracture Analysis of Channel Cracks in Flexible Multilayer Structure Films under Bending Conditions

Sung-Hoon Choa, Byoung-Ho Ko, Haeng-Soo Lee

PII: S0013-7944(17)31289-4

DOI: <https://doi.org/10.1016/j.engfracmech.2018.05.022>

Reference: EFM 5996

To appear in: *Engineering Fracture Mechanics*

Received Date: 7 December 2017

Revised Date: 27 March 2018

Accepted Date: 12 May 2018

Please cite this article as: Choa, S-H., Ko, B-H., Lee, H-S., Fracture Analysis of Channel Cracks in Flexible Multilayer Structure Films under Bending Conditions, *Engineering Fracture Mechanics* (2018), doi: <https://doi.org/10.1016/j.engfracmech.2018.05.022>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
