Influence of different shot peening treatments on surface state and fatigue behaviour of Al 6063 alloy

Juan González, Sara Bagherifard, Mario Guagliano, Ines Fernández Pariente

PII: S0013-7944(16)30716-0
DOI: <http://dx.doi.org/10.1016/j.engfracmech.2017.03.017>
Reference: EFM 5442

To appear in: *Engineering Fracture Mechanics*

Received Date: 13 January 2017
Revised Date: 11 March 2017
Accepted Date: 12 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
