Elastoplastic response and recoil of honeycomb lattices

Alessandra Bonfanti, Atul Bhaskar

PII: S0997-7538(17)30112-2

DOI: [10.1016/j.euromechsol.2017.12.003](https://doi.org/10.1016/j.euromechsol.2017.12.003)

Reference: EJM SOL 3526

To appear in: *European Journal of Mechanics / A Solids*

Received Date: 8 February 2017

Revised Date: 5 December 2017

Accepted Date: 14 December 2017

Please cite this article as: Bonfanti, A., Bhaskar, A., Elastoplastic response and recoil of honeycomb lattices, *European Journal of Mechanics / A Solids* (2018), doi: 10.1016/j.euromechsol.2017.12.003.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Analytical elasto-plastic response for a planar honeycomb sheet
- Analytical spring-back calculation for a hexagonal honeycomb sheet
- Scaling transformation that unifies the response of all lattices to a master-curve
- Response of auxetic lattices under plastic deformation
