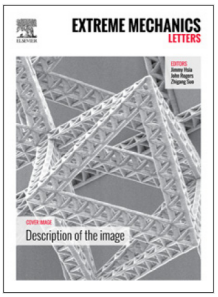
Accepted Manuscript



A facile, robust and versatile finite element implementation to study the time-dependent behaviors of responsive gels

Xu Wang, Zirui Zhai, Yuli Chen, Hanqing Jiang

PII: S2352-4316(18)30088-9
DOI: https://doi.org/10.1016/j.eml.2018.05.007
Reference: EML 373

To appear in: *Extreme Mechanics Letters*

Received date : 24 April 2018
Revised date : 26 May 2018
Accepted date : 29 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
