

## Accepted Manuscript

Crack formation and microstructure-sensitive propagation in low cycle fatigue of a polycrystalline nickel-based superalloy with different heat treatments

Yahui Liu, Maodong Kang, Yun Wu, Mengmeng Wang, Min Li, Junwei Yu, Haiyan Gao, Jun Wang

PII: S0142-1123(17)30404-8

DOI: <https://doi.org/10.1016/j.ijfatigue.2017.10.012>

Reference: JIJF 4486

To appear in: *International Journal of Fatigue*

Received Date: 20 July 2017

Revised Date: 6 October 2017

Accepted Date: 20 October 2017

Please cite this article as: Liu, Y., Kang, M., Wu, Y., Wang, M., Li, M., Yu, J., Gao, H., Wang, J., Crack formation and microstructure-sensitive propagation in low cycle fatigue of a polycrystalline nickel-based superalloy with different heat treatments, *International Journal of Fatigue* (2017), doi: <https://doi.org/10.1016/j.ijfatigue.2017.10.012>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Crack formation and microstructure-sensitive propagation in low cycle fatigue of a polycrystalline nickel-based superalloy with different heat treatments**
