Thermal, mechanical and chemical material removal mechanism of carbon fiber reinforced polymers in electrical discharge machining

Xiaoming Yue, Xiaodong Yang, Jing Tian, Zhenfeng He, Yunqing Fan

PII: S0890-6955(18)30098-1

DOI: [10.1016/j.ijmachtools.2018.05.004](https://doi.org/10.1016/j.ijmachtools.2018.05.004)

Reference: MTM 3349

To appear in: *International Journal of Machine Tools and Manufacture*

Received Date: 2 March 2018

Revised Date: 4 May 2018

Accepted Date: 17 May 2018

Fan, Thermal, mechanical and chemical material removal mechanism of carbon fiber reinforced polymers in electrical discharge machining, *International Journal of Machine Tools and Manufacture* (2018), doi: 10.1016/j.ijmachtools.2018.05.004.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thermal, mechanical and chemical material removal mechanism of carbon fiber reinforced polymers in electrical discharge machining
