Interfacial leakage of elastomer seals at low temperatures

A.G. Akulichev, A.T. Echtermeyer, B.N.J. Persson

PII: S0308-0161(17)30316-2

DOI: [10.1016/j.ijpvp.2017.11.014](https://doi.org/10.1016/j.ijpvp.2017.11.014)

Reference: IPVP 3670

To appear in: *International Journal of Pressure Vessels and Piping*

Received Date: 11 September 2017

Revised Date: 26 November 2017

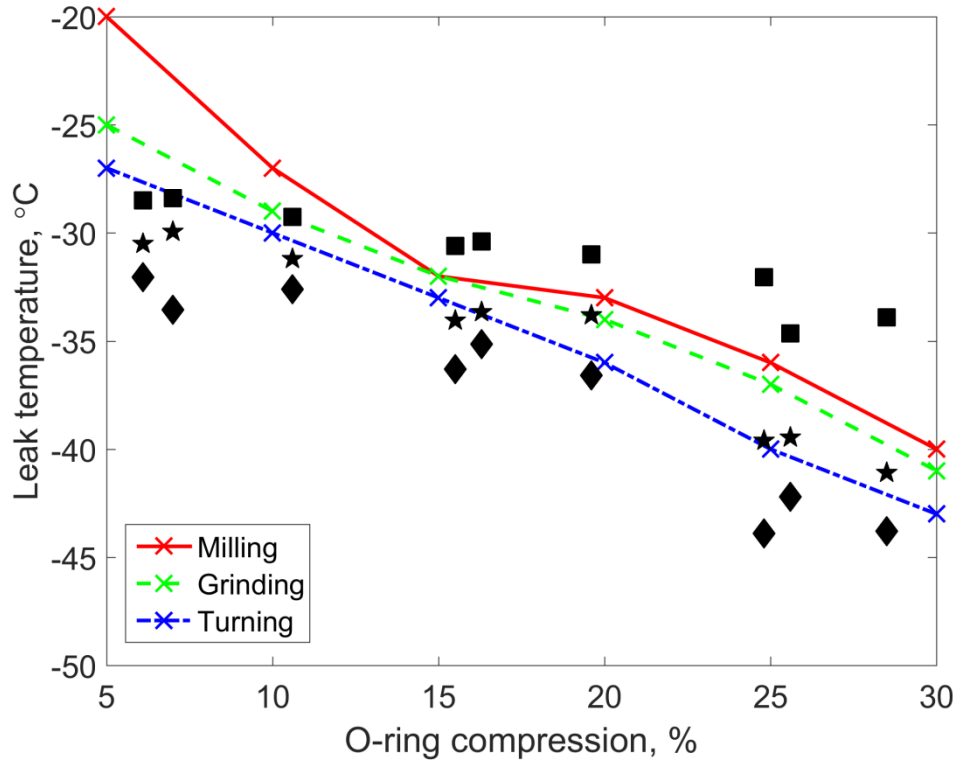

Accepted Date: 27 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Contact pressure in compressed O-ring

Prediction of cold seal failures vs experiment

Effect of adhesive interaction
