

Accepted Manuscript

A Novel Phase Change Based Cooling System for Prismatic Lithium Ion Batteries

Maan Al-Zareer , Ibrahim Dincer , Marc A. Rosen

PII: S0140-7007(17)30503-0
DOI: [10.1016/j.ijrefrig.2017.12.005](https://doi.org/10.1016/j.ijrefrig.2017.12.005)
Reference: IJIR 3847

To appear in: *International Journal of Refrigeration*

Received date: 15 October 2017
Revised date: 29 November 2017
Accepted date: 5 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Novel cooling system for prismatic batteries is proposed for HEVs
- HEVs fuel is used to cool the batteries and produce power
- The proposed system is a passive cooling system
