Title: Influence of multi-pass friction stir processing on wear behaviour and machinability of an Al-Si hypoeutectic A356 alloy

Author: Sandeep Kumar Singh R.J. Immanuel S. Babu S.K. Panigrahi G.D. Janaki Ram

PII: S0924-0136(16)30160-1
DOI: <http://dx.doi.org/doi:10.1016/j.jmatprotec.2016.05.019>
Reference: PROTEC 14821

To appear in: *Journal of Materials Processing Technology*

Received date: 23-3-2016
Accepted date: 18-5-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Influence of multi-pass friction stir processing on wear behaviour and machinability of an Al-Si hypoeutectic A356 alloy
