

Author's Accepted Manuscript

Viscoelasticity of Brain Corpus Callosum in Biaxial Tension

Kevin M. Labus, Christian M. Puttlitz

PII: S0022-5096(16)30219-8
DOI: <http://dx.doi.org/10.1016/j.jmps.2016.08.010>
Reference: MPS2973

To appear in: *Journal of the Mechanics and Physics of Solids*

Received date: 4 April 2016
Revised date: 18 July 2016
Accepted date: 24 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Viscoelasticity of Brain Corpus Callosum in Biaxial Tension
