

Vertebral Strength Prediction from Bi-Planar Dual Energy X-ray Absorptiometry under Anterior Compressive Force using a Finite Element Model: an *in vitro* study

Julie Choisne, Jean-Marc Valiadis, Christophe Travert, Sami Kolta, Christian Roux, Wafa Skalli

PII: S1751-6161(18)30769-0
DOI: <https://doi.org/10.1016/j.jmbbm.2018.07.026>
Reference: JMBBM2894

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 19 October 2017
Revised date: 18 May 2018
Accepted date: 17 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
