

Author's Accepted Manuscript

Influence of the material properties of a poly(D,L-lactide)/ β -tricalcium phosphate composite on the processability by selective laser sintering

Christoph Gayer, Jessica Abert, Martin Bullemer, Stefanie Grom, Lucas Jauer, Wilhelm Meiners, Frank Reinauer, Marijan Vučak, Konrad Wissenbach, Reinhart Poprawe, Johannes Henrich Schleifenbaum, Horst Fischer

PII: S1751-6161(18)30399-0
DOI: <https://doi.org/10.1016/j.jmbbm.2018.07.021>
Reference: JMBBM2889

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 24 March 2018
Revised date: 20 June 2018
Accepted date: 13 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
