Radiation therapy affects the mechanical behavior of human umbilical vein endothelial cells

Alireza Mohammadkarim, Mohammad Tabatabaei, Azim Parandakh, Manijhe Mokhtari-Dizaji, Mohammad Tafazzoli-Shadpour, Mohammad-Mehdi Khani

PII: S1751-6161(18)30618-0
DOI: <https://doi.org/10.1016/j.jmbbm.2018.06.009>
Reference: JMBBM2830

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 22 January 2018
Revised date: 21 April 2018
Accepted date: 5 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Radiation therapy affects the mechanical behavior of human umbilical vein endothelial cells
