

## Author's Accepted Manuscript

An analysis of crack growth in dentin at the microstructural scale

Bingbing An, Dongsheng Zhang

PII: S1751-6161(18)30219-4

DOI: <https://doi.org/10.1016/j.jmbbm.2018.02.029>

Reference: JMBBM2706

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 9 November 2017

Revised date: 21 January 2018

Accepted date: 22 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
