Experimental and modeling investigation on the rheological behavior of collagen solution as a function of acetic acid concentration

Huan Yang, Lian Duan, Qian Li, Zhenhua Tian, Guoying Li

PII: S1751-6161(17)30384-3
DOI: <http://dx.doi.org/10.1016/j.jmbbm.2017.09.003>
Reference: JMBBM2487

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 12 July 2017
Revised date: 28 August 2017
Accepted date: 3 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Experimental and modeling investigation on the
rheological behavior of collagen solution as a function of
acetic acid concentration**
