

Author's Accepted Manuscript

Patient-specific simulation of endovascular repair surgery with tortuous aneurysms requiring flexible stent-grafts

David Perrin, Pierre Badel, Laurent Orgeas, Christian Geindreau, Sabine rolland du Roscoat, Jean-Noël Albertini, Stéphane Avril

PII: S1751-6161(16)30179-5
DOI: <http://dx.doi.org/10.1016/j.jmbbm.2016.06.013>
Reference: JMBBM1964

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 9 December 2015
Revised date: 10 May 2016
Accepted date: 11 June 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain

Patient-specific simulation of endovascular repair surgery with tortuous aneurysms requiring flexible stent-grafts
