The Biaxial Active Mechanical Properties
Of The Porcine Primary Renal Artery

Boran Zhou, Alexander Rachev, Tarek Shazly

www.elsevier.com/locate/jmbbm

PII: S1751-6161(15)00118-6
DOI: <http://dx.doi.org/10.1016/j.jmbbm.2015.04.004>
Reference: JMBBM1440

To appear in: *Journal of the Mechanical Behavior of Biomedical Materials*

Received date: 15 January 2015
Revised date: 26 March 2015
Accepted date:
1 April 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

THE BIAxIAL ACTIVE MECHANICAL PROPERTIES OF THE PORCINE PRIMARY RENAL ARTERY
