Enhanced electromechanical performance of P(VDF-TrFE-CTFE) thin films hybridized with highly dispersed carbon blacks

Nguyen Dien Kha Tu, Myoung-Sub Noh, Youngpyo Ko, Jong-Ho Kim, Chong Yun Kang, Heesuk Kim

PII: S1359-8368(18)31353-2

DOI: [10.1016/j.compositesb.2018.06.036](https://doi.org/10.1016/j.compositesb.2018.06.036)

Reference: JCOMB 5766

To appear in: *Composites Part B*

Received Date: 2 May 2018

Accepted Date: 26 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Enhanced electromechanical performance of P(VDF-TrFE-CTFE) thin films hybridized with highly dispersed carbon blacks
