3D printing two-dimensional periodic structures to tailor in-plane dynamic responses and fracture behaviors

Ming Lei, Craig M. Hamel, Chao Yuan, Haibao Lu, H. Jerry Qi

PII: S0266-3538(17)32522-8

DOI: [10.1016/j.compscitech.2018.02.024](https://doi.org/10.1016/j.compscitech.2018.02.024)

Reference: CSTE 7100

To appear in: *Composites Science and Technology*

Received Date: 7 October 2017

Revised Date: 15 January 2018

Accepted Date: 14 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

3D printing two-dimensional periodic structures to tailor in-plane dynamic responses and fracture behaviors
