Unraveling crack stability and strain localization in staggered composites by fracture analysis on the shear-lag model

Zhongliang Yu, Junjie Liu, Xiaoding Wei

PII: S0266-3538(17)31104-1

DOI: [10.1016/j.compscitech.2017.12.035](https://doi.org/10.1016/j.compscitech.2017.12.035)

Reference: CSTE 7023

To appear in: *Composites Science and Technology*

Received Date: 8 May 2017

Revised Date: 26 December 2017

Accepted Date: 30 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Unraveling crack stability and strain localization in staggered composites  
by fracture analysis on the shear-lag model
