Influence of olivine nano-silica on hydration and performance of oil-well cement slurries

G. Quercia, H.J.H. Brouwers, A. Garnier, K. Luke

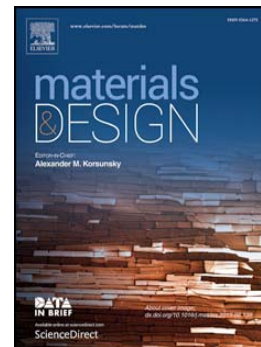

PII: S0264-1275(16)30148-4
DOI: doi: [10.1016/j.matdes.2016.02.001](https://doi.org/10.1016/j.matdes.2016.02.001)
Reference: JMADE 1351

To appear in:

Received date: 4 June 2015
Revised date: 1 February 2016
Accepted date: 2 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**INFLUENCE OF OLIVINE NANO-SILICA ON HYDRATION AND PERFORMANCE OF
OIL-WELL CEMENT SLURRIES**

G. Quercia^{1,2,4*}, H.J.H. Brouwers², A. Garnier³ and K. Luke⁴
