Microstructure and micro-textural studies of friction stir welded AA6061-T6 subjected to different rotation speeds

Wang Tao, Yong Zou, Kenji Matsuda

PII: S0264-1275(15)30677-8
DOI: doi: [10.1016/j.matdes.2015.10.100](https://doi.org/10.1016/j.matdes.2015.10.100)
Reference: JMADE 839

To appear in:

Received date: 20 June 2015
Revised date: 15 October 2015
Accepted date: 17 October 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Microstructure and micro-textural studies of friction stir welded AA6061-T6 subjected to different rotation speeds
