Bioelectronic organ-based sensor for microfluidic real-time analysis of the demand in insulin

R. Perrier, A. Pirog, M. Jaffredo, J. Gaitan, B. Catargi, S. Renaud, M. Raoux, J. Lang

PII: S0956-5663(18)30446-9
DOI: <https://doi.org/10.1016/j.bios.2018.06.015>
Reference: BIOS10535

To appear in: *Biosensors and Bioelectronic*

Received date: 18 May 2018
Revised date: 4 June 2018
Accepted date: 6 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
