Highly sensitive paper-based immunoassay using photothermal laser speckle imaging

Seungri Song, Seoyeon Choi, Suho Ryu, Soochchol Kim, Tongwha Kim, Joonchul Shin, Hyo-II Jung, Chulmin Joo

PII: S0956-5663(18)30456-1
DOI: <https://doi.org/10.1016/j.bios.2018.06.024>
Reference: BIOS10544

To appear in: *Biosensors and Bioelectronic*

Received date: 28 April 2018
Revised date: 8 June 2018
Accepted date: 8 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highly sensitive paper-based immunoassay using photothermal laser speckle imaging
