Morphometry and Hemodynamics of Posterior Communicating Artery Aneurysms: Ruptured vs. Unruptured

Xu Huang, Donghui Liu, Xiaoping Yin, E. Yajun, Zhiqiang Li, Wenchang Tan, Yunlong Huo

PII: S0021-9290(18)30370-1

DOI: <https://doi.org/10.1016/j.jbiomech.2018.05.019>

Reference: BM 8713

To appear in: *Journal of Biomechanics*

Accepted Date: 10 May 2018

Please cite this article as: X. Huang, D. Liu, X. Yin, E. Yajun, Z. Li, W. Tan, Y. Huo, Morphometry and Hemodynamics of Posterior Communicating Artery Aneurysms: Ruptured vs. Unruptured, *Journal of Biomechanics* (2018), doi: <https://doi.org/10.1016/j.jbiomech.2018.05.019>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Morphometry and Hemodynamics of Posterior Communicating Artery

Aneurysms: Ruptured vs. Unruptured

Xu Huang^{1,2*}, Donghui Liu^{3*}, Xiaoping Yin⁴, Yajun E³, Zhiqiang Li³, Wenchang Tan^{1,2,5} and Yunlong Huo^{1,2}
