This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

KINEMATIC ALGORITHM TO DETERMINE THE ENERGY COST OF RUNNING WITH CHANGES OF DIRECTION

Submission type: original investigation

Running head: energetics of changes of direction

Abstract word count: 247

Text-only word count: 3499

Number of Figures: 4

Number of Tables: 3

Number of references: 35
