On the Variation in Maternal Birth Canal In Vivo Viscoelastic Properties and Their Effect on the Predicted Length of Active Second Stage and Levator Ani Tears

Paige V Tracy, Shreya Wadhwani, Jourdan Triebwasser, Alan S Wineman, Francisco J Orejuela, Susan M Ramin, John O DeLancey, James A Ashton-Miller

PII: S0021-9290(18)30292-6

DOI: <https://doi.org/10.1016/j.jbiomech.2018.04.019>

Reference: BM 8666

To appear in: *Journal of Biomechanics*

Accepted Date: 14 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
